ASX RELEASE

XiTRON Technologies, Inc. – Satisfactory Resolution of Former XiTRON Owner Action

ImpediMed Limited and its wholly owned subsidiary, XiTRON Technologies Inc., was served in December 2009 with a US civil action by James R Matthie, a former employee and founder of XiTRON. The action related to an agreement made by XiTRON in 2001, before ImpediMed purchased XiTRON, and has been referred to in the ImpediMed annual accounts.

The Company is pleased to announce that this matter has been successfully resolved. The civil proceeding will be discontinued and a release has been obtained from Mr Matthie in favour of the ImpediMed Group. The terms of the settlement are confidential and are not material to the Company's financial position.

A handwritten signature in black ink, appearing to read "Stephen Denaro".
